PROFESSIONAL SUMMARY

As a freelance Full-Stack Developer, I am into the creation of fast and appealing web solutions. I excel in project management and communication, always delivering top-quality work in accordance with the expectations of the clients. I have acquired skills in key technologies like React, but I still observe a framework-agnostic approach to make sure that flexibility and adaptability are maintained for the projects at hand. I am always interested in learning new technologies and following the latest industry trends in pursuit of business success through fresh and unique digital strategies.

EXPERIENCE

Freelance   Dec 2022 - Present
